

Stahlbush Island Farms

Located in the heart of Oregon's lush Willamette Valley is a family owned, environmentally friendly farm and food processing operation committed to sustainable agriculture and energy production.

Sustainability is a
Philosophy ...
and a Journey

Farming for the Future

We use and have helped pioneer specific practices that reduce pesticide use and leaves the soil healthier and groundwater cleaner for future generations.

Farming for the Future

Placing cover crops near waterways has helped lead to the establishment of an on-site 73-count Great Blue Heron rookery.

National Certifications

Sustainable Farm Practices

Sustainable Farm Practices

- ☛ Water Conservation
- ☛ Reducing & Eliminating Pesticides
- ☛ Flame Weed Control
- ☛ Soil Residue Testing
- ☛ Product Residue Testing

Low pressure irrigation system
to conserve energy and water

Good Agricultural and Best Management Practices

Technology and Innovation

☛ Tractors equipped with Global Positioning Systems for more accurate cultivation and input application.

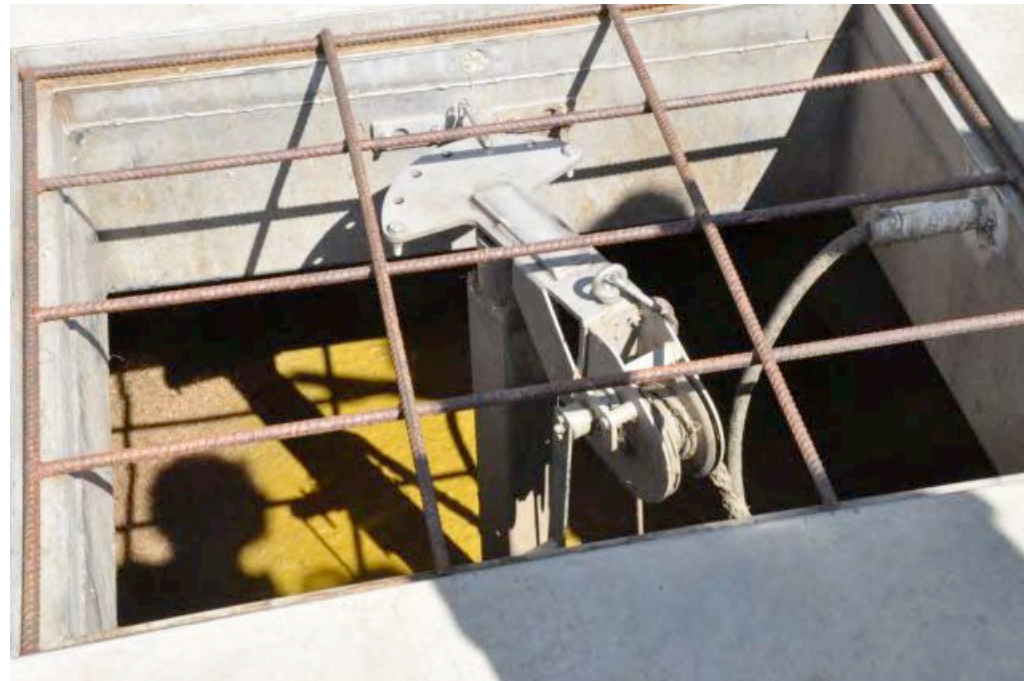

The Integration of Farming and Energy Production

Feeding the Cow

Slurry from fruit and vegetable by-product, headed for digestion

Methane-Rich Gas, Moving through the Farm

Power Co-Generation, Electricity and Heat (we use both)

ENERGY INDEPENDENCE!
